You need to take the master candidacy test by yourself without assistance from any other person or resource. I'm aware that violation of the above statement effectively results in the "failed" status of the test and subsequent withdrawal of the consideration for the Master's studies.

The following types of question are used:

- multiple choice, multiple correct answers (answers to be chosen by selecting the checkboxes)
- multiple choice, single correct answer (answers to be chosen by selecting radio buttons)
- numerical answers (input of numbers only in the edit box)
- Kprim style questions (fourtimes decision true/false)

The type of question is indicated by its control in each case.

The exam will be made available to you via the ILIAS learning platform which can be accessed via <https://ilias.studium.kit.edu>. The login data is provided separately.

The exam is available at the above-mentioned time in the ILIAS course "Zugangsprüfung für den Masterstudiengang MATWERK / Entrance examination for the Master's program in MSE".

No further registration is necessary.

The test object itself is only visible during the above-mentioned processing period.

The following equipment is needed for taking the exam

- own PC or laptop
- reliable internet connection
- browser

The answers and selections are submitted directly in the ILIAS test object.

If there are any problems during the exam (e.g. disturbance of internet connection), you have to report them immediately to the supervisors.

The supervisors are available during the exam via zoom:
